Economic Development

It takes power to grow a business and that power comes from partnership. Strong business partners help companies accelerate growth. As a utility delivering reliable energy to businesses in Illinois and Missouri, Ameren is also focused on helping businesses throughout the entire development process.

It makes sense for Ameren to be involved - our dedicated economic development team works with companies every day. And more and more companies are coming to depend on us as they look to Midwest locations. Here’s why:

- **Advanced infrastructure.** Customers have high expectations for the energy that powers the quality of their life.

- **Access to a workforce of more than 3.1 million individuals energized by education and experience driven by a dependable Midwest work ethic.**

- **A collection of the diverse industries that built the region:** Agribusiness, Advanced Manufacturing, Logistics & Transportation.

With the help of business partners in Illinois and Missouri, we can get you started building your business today, and we’ll stay with you as your Midwest facilities grow. At Ameren, we firmly believe that when the right people come together, great things happen!

**Our Services and Team** Contact us for a customized approach to locate, expand or relocate your business. We can make your process easier and help you succeed with your business goals.

Manufacturing Incentives

Give Your Business a Lift

Manufacturing and industrial operations are among the most energy-intensive businesses, so there's great potential to improve energy efficiency. Ameren Illinois can help your facility take control of energy costs and manufacture some savings.

Cash incentives are available for a variety of Manufacturing projects, including:

- No-cost/low-cost energy efficiency improvements
- Compressed air leak survey and repair
- Steam trap survey and replacement
- Variable frequency drive (VFD) installs
- Lighting upgrades
- HVAC and water heater replacements
- Custom projects

How to Get Cash Incentives

Expand For More Details
